

powerblanket™
patented technology

Innovative Heat Spreading Technology

- Thaws Faster
- Accelerates Cure
- Heats Evenly

HEATING INNOVATION:

Greenheat Technology's patented powerblanket™ brand of electrically heated exterior blankets are the ideal heat solution for ground thaw, concrete cure and most cold weather construction needs.

The powerblanket™ is the revolutionary outdoor heating blanket. With our patented heat spreading technology, it is finally possible to achieve an even, consistent directional heat. Using only 120V or 12V, it's the most efficient and energy saving solution on the market today. The powerblanket™ is lightweight and durable, requiring virtually no maintenance, saving time, money & labor.

GROUND THAWING:

The innovative design and patented technology of the powerblanket™ makes it the most efficient and easy to use ground thawing unit available.

120 VOLT

Less energy consumption. Low cost of operation. No open flames, hazardous waste or propane. Saves energy, making it the environmentally friendly, cost effective solution.

Plug multiple blankets together on the same circuit.

PATENTED HEAT SPREADING TECHNOLOGY

Spreads heat evenly and reduces energy waste.

EXTERIOR VINYL

Durable, pliable, conforms to almost any surface.

WATER RESISTANT

LIGHTWEIGHT

Easy for one person to transport and set up.

FAST & SIMPLE SET UP

Reduces labor costs. No additional technicians.

INDUSTRY STANDARD SIZES AVAILABLE

CUSTOMS SIZES AVAILABLE FOR SPECIAL

APPLICATIONS.

ELIMINATES MAINTENANCE

Eliminates heavy hoses, vapor barriers and additional insulated blankets.

Eliminates monitoring on conventional heaters.

ALLOWS POURING IN ACI REQUIRED CONDITIONS (40F+), DESPITE FREEZING TEMPERATURES, BY PREHEATING DECKING / SUBGRADE PRIOR TO CONCRETE POUR

MULTI-DUTY GROUND THAWING BLANKET:

11X23 MULTI-DUTY BLANKET

Thaw frozen ground, cure concrete, melt snow/ice, prepare construction sites prior to pouring concrete.

6X25 MULTI-DUTY BLANKET

Thaw frozen ground, cure concrete, prepare construction sites for pouring concrete and cure foundation walls. Versatile for multiple applications.

10X10 MULTI-DUTY BLANKET

Thaw frozen ground, heat sand and aggregate. Lightweight used for curing foundations and walls.

3X25 MULTI-DUTY BLANKET

Thaw frozen ground and cure concrete. Designed for footings, sidewalks, curb & gutter and other odd sized jobs.

EXTRA-HOT GROUND THAWING BLANKET:

6X12 EXTRA-HOT BLANKET

Designed for extreme cold conditions. Thaw frozen ground fast. Melt snow/ice. Used for utility digging.

4X9 EXTRA-HOT BLANKET

Designed for extreme cold conditions. Thaws frozen ground fast. Melt snow/ice. Used for utility digging.

4X5 EXTRA-HOT BLANKET

Thaw frozen ground. Melt snow/ice. Motor/engine warmer.

2X2 EXTRA-HOT BLANKET

Multiple uses for smaller applications.

Product Category	Model #	Size in Feet	Voltage	Wattage	Amps	# of Blankets per 20amp Circuit
MULTI-DUTY	MD1123	11'X23'	120V	2,400	20.00	1
	MD0625	6'X25'	120V	1,200	10.00	2
	MD1010	10'X10'	120V	1,200	10.00	2
	MD0325	3'X25'	120V	1,140	9.50	2
	MD0404-12V	4'X4'	12V	240	20	N/A
	MD0202-12V	2'X2'	12V	96	8	N/A
EXTRA-HOT	EH0612	6'X12'	120V	1,750	14.58	1
	EH0409	4'X9'	120V	1,300	10.90	2
	EH0405	4'X5'	120V	310	2.60	8
	EH0202	2'X2'	120V	90	0.75	20

Recommended 12 or 10 gauge extension cords. Maximum recommended length: 50 ft. 12 gauge and 100 ft. for 10 gauge.

Greenheat Technology guarantees it's products to be free from defect in material or craftsmanship. Please call **1.877.448.2588** for additional product information and pricing.
